To: Ivan Milentijevic

Project coordinator of the KNOWTS Tempus project

2009 – 4656 / 001- 001

SUBJECT: overall opinion on the KNOWTS project

The General Foundation of the University of Alicante was partner of the KNOWTS project and we are happy to have had the possibility to participate in this initiative. The activities have been carried out in accordance with the project proposal. All partners intervened in the activity implementation and this enriched the outputs.

The project topic was also interesting and above all crucial for the partner country involved. It is an opportunity for a more intensive cooperation among them and thus TT offices development and continuous improvement. KNOWTS also fostered good practice sharing from EU partners who participated in the project sharing good practice as an example for Serbian HEIs.

Another aspect to underline is the stakeholders' involvement. From the very beginning we saw an active involvement of all stakeholders (TT offices, Chamber of Commerce, companies, etc.) during the meeting. This was important for the project development as well as for the dissemination and sustainability.

The project coordinator has been extremely involved in the project from the very beginning till the end. The management in general was transparent and of a good quality.

Signed,

Lucia Gomis,

Director, General Foundation of the University of Alicante
