

TTC University of Nis

TTC was founded by the Decision of the University Council in 2011 as an organizational unit of the University of Nis. TTC is located at the Faculty of Electronic Engineering, Room 332, Aleksandra Medvedeva 14, 18000 Nis. The comfortable room is well equipped with necessary infrastructure (furniture, internet access, air conditioning, and direct phone line). University management is creating the Rule Book for TTCs. The Rule Book will be adopted by the Senat of the University in October, 2012. The Faculty of Electronic Engineering, University of Niš, developed the software system for TTCs. On one hand, the system supports acquisition of data related to the technologies that are developed at the universities, and on the other hand the acquisition of commercial potentials of companies. The primary objective of the system is to register the users and their potentials related to technologies and the commercialization, and to help TTCs to match potential pairs. Mr Darko Tasic, MSc in electrotechnis and computing, who passed several trainings in technology transfer is in the position of TT officer.
